

# WRAPS & BAGUETTES

To guide you to better food choices for our planet, we have teamed up with Klimato to present climate labels on all retail menus during COP26. Klimato uses climate data from lifecycle assessments to calculate the carbon footprint of meals served during the Summit. The Klimato climate label indicates whether a dish has a Low, Medium or High carbon footprint

## WRAPS

### VEGAN CHEESE & TOMATO CHUTNEY

with spinach, in a white flour wrap

- PLANT-BASED

### GRILLED VEGETABLES, VEGAN CHEESE & PESTO

in a white flour wrap

- PLANT BASED

## BAGUETTES

### CONNAGE BRIE & ARRAN CHUTNEY

with adji cress in a white flour baguette

### SLICED FREE RANGE EGG, SPINACH & BLACK PEPPER

with aromatic shoots, on a wholemeal baguette

Today, an average meal has a carbon footprint of 1.7 kg CO<sub>2</sub>e in the UK. According to the WWF, we need to get this number down below 0.5 kg CO<sub>2</sub>e to reach the goals defined in the Paris Agreement. By including climate labels on our menus, we aim to make it easier to achieve this goal - together.
